Entrance Requirements

FSU-Teach is an innovative approach to teacher education that involves collaboration between scientists, mathematicians and education faculty. Biology students will develop deep knowledge and the skill and experience needed to be an effective biology teacher. This is a double-major only program. FSU-Teach majors are first admitted into their primary, discipline-specific major and must meet the state-wide common program prerequisites for that major (biology). Later, students apply for admission into a secondary major within the College of Education. Upon graduation, students are awarded the B.S. degree with majors in Biological Science and Science Teaching.

To be recognized as "formally admitted" into this major, transfer students must meet the following requirements: 1) certification to upper division; 2) completion an AA; 3) satisfactory completion of SMT 1043 & 1053 at FSU; 4) a cumulative GPA of at least a 2.5; 5) completion of all of the common prerequisite courses for the Mathematics major; and 6) a passing score on all four parts of the FTCE General Knowledge Test.

A student who has accumulated more than five grades below "C-" (including grades of "U") in mathematics or computer sciences courses, taken for college credit at FSU or elsewhere, whether repeated or not, will not be permitted to continue in the program.

FSU WILL DENY ADMISSION TO ANY STUDENT WHO HAS NOT SATISFIED THE STATE FOREIGN LANGUAGE ADMISSIONS REQUIREMENT.

This major is in the College of Arts and Sciences and requires completion of a foreign language through the 2220 level before graduation from FSU.

FSU requires competency in oral communications for graduation. If students took a speech course in high school or were members of a debate team, they may exempt this requirement during the FSU admissions process. If not, students should take SPC 2608 at Chipola to satisfy this requirement.

FSU requires basic computer proficiency; BSC 2010L will meet with requirement with a grade of "C" or higher.
